

RUN 2011T

Width:	70 cm
Length:	188 cm
Height:	142 cm
Weight:	145 kgs

Technical specifications:

- RS232 output (Trackmaster protocol);
- Speed Max 20 km/h;
- Speed Min 0.1 km/h;
- Speed Increment 0.1 km/h;
- Inclination Max 22%;
- Inclination Min 0%;
- Inclination increment 0.5 / 1%;
- Electronic variation of speed and inclination (remote use only);
- Absorbed power at max speed 2000 VA;
- Nominal absorbed power 1500 VA;
- Noise < 30 DB;
- Damped board;
- User's max weight 150 kgs;
- Emergency stop button and pull rope with magnet;

- Certificate of conformity to EEC93/42 Rule (medical device);
- Self-centring belt system;
- Self-lubrication belt system;
- Walking surface: 140 x 48 cm;
- Transformer 1700 VA;
- Inverter 1.5 kw;
- Power supply 220~240Vac 50/60 Hz 10Amp;
- Auxiliary circuit of inclination: 18 Vac;
- Auxiliary circuit of console: 12 Vdc;
- Motor power (max peak) 5 HP (AC).

Standard accessories:

- Wheels for movement;
- Service equipment;
- Long size handrails.
